

HAYWARD BAKER

Half-Day Ground Modification Seminar

The Westin St. Louis, Missouri

**Thursday, November 18, 2004
8:00 a.m. to 1:00 p.m.**

America's largest geotechnical construction contractor will hold a HALF DAY SEMINAR for engineers, architects, developers, property and facility managers, and general contractors. Ground Modification presentations will be given by:

Jeff Hill, St. Louis Office
Steve Jaques, Des Moines Office

Kyle Camper, Chicago Office
Ray Franz, Chicago Office
Frank Swekosky, Chicago Office

Seminar Focus & Format

Hayward Baker engineers and project managers from our Midwest offices present a Half-Day Seminar on:

Hayward Baker Ground Modification Technologies and Their Role in Design, Construction, and Remediation

- ◆ Grouting: Jet, Chemical & Compaction
- ◆ Stone Columns
- ◆ Vibro Compaction
- ◆ Micropiles
- ◆ Soil & Rock Anchors / Earth Retention

Presentations will cover design methods, construction techniques, recent advancements and case studies.

The Tour

Following a complimentary lunch, you will have the opportunity to tour the basement of the Cupples Station Westin where, in 2000, Hayward Baker installed 160 Micropiles to support the hotel.
